Introduction of ICANN's new registration data policy in .swiss

2024-08-08

Dear .swiss Registrar,

On February 21, 2024, ICANN published the new Registration Data Policy, with an effective date of August 21, 2025. This Registration Data Policy can be found here: <https://www.icann.org/resources/pages/registration-data-policy-2024-02-21-en>.

The .swiss Registry has established August 15, 2025, as the deadline for all .swiss Registrars to align with the new Registration Data Policy.

The policy offers Registries the option between different sets of data to collect and process. As a community TLD with the obligation to verify the connection between the registered domain names and the .swiss community, the .swiss Registry will not reduce the current data set, except where required by the Registration Data Policy.

In this regard, starting from August 21, 2024, the collection and transmission of AdminContact details to the Registry will be optional. Registrars may continue to collect and transmit these details until August 15, 2025, or choose not to do so at any time between these two dates.

At a later stage, the .swiss Registry will provide a revised RRA that reflects the requirements of the new Registration Data Policy. No other changes are anticipated regarding the implementation of the Registration Data Policy until August 15, 2025.

For questions or additional information, please contact us at domainnames@bakom.admin.ch.

Thank you in advance for your cooperation and best regards
